PROFESSIONAL SUMMARY

Dealership operator with 12 years across every seat — marketing, national internet leads, new and pre-owned sales (Renault, Nissan, Motus), service desk (2022–2025), and multi-franchise call centre management — plus 2 years building production AI agents that remove admin from those same jobs. Renault Dzire-trained Service Advisor with deep Suzuki and Renault knowledge and a self-built Suzuki costing tool. Currently New Vehicle Sales Executive at BB Gezina Nissan, running a WhatsApp AI lead bot on live enquiries. Seeking Service Advisor or AI Operations / Implementation roles where floor experience plus working automation is the advantage.

KEY COMPETENCIES

- **Aftersales & service:** booking, authorisation, repair communication, parts procurement, invoicing, warranty, complaint resolution, compliant vehicle release, CSI.
- **Sales & lead conversion:** prospecting, needs analysis, demo, negotiation, trade-in evaluation, delivery, referrals; CRM discipline; national lead qualification and dealer follow-up.
- **Team & process leadership:** call-centre scripting, conversion analysis, agent training and recruitment, workshop flow support.
- **AI implementation (dealership-ready):** lead-response bots, automated reporting, call analysis, scheduled jobs — specified from floor pain, deployed to live teams, kept only if hours are saved.

AI & AUTOMATION — WHAT IT MEANS FOR YOU

I take repetitive admin off the team so they can sell and service. If a task is manual, repeated weekly, and nobody enjoys it — I automate it, put it in live use the same week, and keep it only if it saves real hours.

Manual work I remove: extracting text from documents, drafting replies and follow-ups, retyping quotes, chasing leads, rebuilding the same report every week.

What the team gets: faster first response (WhatsApp bot on live enquiries), consistent follow-up, a 06:00 daily digest instead of morning admin, and accurate Suzuki costings in minutes.

Why I can deliver it: 12 years in the seats being automated, so I specify from the pain — then train in plain language until the team actually uses it.

Proof in one click: live agent with 198 skills (nageljakes.github.io/jaxtechweb), open-source build on GitHub, in daily use on my own Nissan pipeline and previously in the BB Hatfield call centre.

Tools: Python, JavaScript, Cloudflare Workers AI, Google ADK / Gemini. Full stack on request — the CV sells the outcome, not the manual.

PROFESSIONAL EXPERIENCE

New Vehicle Sales Executive — BB Gezina Nissan, Pretoria

Jun 2026 — Present

- Sell Nissan passenger and LCV range; own prospecting, CRM follow-up and local pipeline (activations, outreach, referrals).
- Deployed WhatsApp AI lead bot for first response on live enquiries; run daily automated enquiry digest on own pipeline.

Call Centre Manager — BB Hatfield Multi-Franchise, Pretoria

Jul 2025 — Jun 2026

- Led multi-franchise team: call and conversion analysis, script and training development, agent recruitment.
- Introduced AI-assisted lead nurturing, multilingual call analysis and automated reporting adopted by the team.

Service Advisor — BB Hatfield Multi-Franchise, Pretoria

May 2022 — May 2025

- Owned customer and administrative lifecycle of servicing: authorisation, repair communication, parts procurement, invoicing, warranty, complaint handling, compliant release.
- Supported workshop flow behind sustained revenue and CSI growth; placed 3rd in group aftersales VAP competition.
- Built Suzuki costing tool to produce fast, accurate quotes; deep Suzuki and Renault servicing knowledge.

New Vehicle Sales Executive — BB Hatfield Renault, Pretoria

Aug 2019 — May 2022

- Consistent Renault performer across full sales journey; personal marketing and referral engine.
- Delivered product-knowledge training to incoming sales executives.

Junior IT Technician — Specialist Mechanical Engineers

May — Sep 2020 (during COVID sales shutdown)

- Resolved computer and network issues for engineering/design teams across two warehouses and head office.

New & Pre-owned Sales Executive — Motus Zambezi

Apr 2017 — Aug 2019

- Sales targets, trade-in evaluations, stock photography and listings, retention and referrals.

Marketing Assistant / National Leads Coordinator — Motus network

2014 — 2017

- Dealer campaigns, budgets and creative production; management reporting on stock, marketing and sales; digital marketing and internet-lead coordination across regional dealer network.

EDUCATION & CERTIFICATIONS

- 2023 — Service Advisor Training, Renault South Africa Dzire Programme
- 2022 — Finance & Administration, College SA (accounting, business literature, applied mathematics)
- 2019 — National Credit Act, Compli-Serve
- 2016 — Business & Marketing, Oxbridge Academy (marketing, communication, computer technology)
- Ongoing — Digital Marketing, Facebook Blueprint Academy; Applied AI & agent engineering (self-directed, project-first: local inference to production agents)
